About Corivis

Experts in Microsoft Intune & Endpoint Management

At Corivis, we specialize in Microsoft Intune and endpoint management, with a strong emphasis on Azure technologies to solve real business challenges. With over 20 years of combined IT experience, we assist organizations in securing, managing, and optimizing their devices through cloud-first solutions. Whether implementing Intune for the first time, migrating from legacy systems, or enhancing your Azure infrastructure, our team delivers technical excellence and transparent communication throughout every project.

What You Can Expect

- Clear communication from start to finish
- Transparent timelines and costs
- Solutions tailored to your exact business needs
- Post-project support to ensure everything runs perfectly

Quick Facts

- **Focus:** Microsoft Intune, Autopilot, Azure End User Computing, Azure Virtual Desktop, Azure Dev Boxes
- **Approach:** Practical — not theoretical. We implement what works for your business.
- **Delivery:** Projects, migrations, long-term support
- **Experience:** 20+ years combined IT experience
- **Deployments:** 200+ devices (sample deployments)
- **Specialization:** SCCM to Intune migrations & modernization, Azure AD (Entra ID) integration
- **Trust:** Clear timelines & post-deployment support

Our Services

We provide end-to-end Intune, End User Computing (EUC), and Azure-related services. Our expertise extends to integrating Azure technologies for enhanced security, scalability, and efficiency. Below are our core offerings:

Intune Setup & Configuration

Full Microsoft Intune deployment, Autopilot zero-touch provisioning, policy creation, and configuration, integrated with Azure Active Directory.

Security & Compliance

Conditional Access, security baselines, encryption policies, and compliance templates to meet standards, leveraging Azure Security Center.

Migration & Modernization

SCCM to Intune migration, hybrid configuration, BYOD strategy & rollout, and Azure Virtual Desktop implementations.

Application & Patch Management

Win32, Store, LOB app deployment, patch scheduling, and monitoring for healthy device estates, with Azure Update Management.

Troubleshooting & Ongoing Support

Fast resolution of device/policy issues and proactive Intune health checks and optimization, including Azure monitoring tools.

Advisory & Workshops

Design workshops, migration planning, and governance to keep your environment secure and scalable, covering Azure best practices.

Azure-Specific Services

- Azure Dev Boxes: Setup and configuration for developer environments, ensuring quick provisioning and scalability.
- Azure Virtual Desktop: Deployment and management for remote work solutions, optimizing performance and security.
- Azure AD Integration: Seamless integration with Intune for identity management and conditional access policies.
- Azure Resource Optimization: Consulting on cost management, scaling, and performance tuning in Azure environments.

Sample Projects

Examples of outcomes we deliver for clients:

- **Intune Deployment for 200+ Devices:** Autopilot, compliance policies, and app deployment with smooth onboarding for users.
- **SCCM to Intune Migration:** Minimal downtime migration plan and phased cutover for hybrid estates.
- **Conditional Access & BYOD:** Protect corporate data while enabling secure remote work.
- **Azure Dev Box Implementation:** Rapid setup of developer workstations in Azure, integrated with Intune for management.
- **Azure Virtual Desktop Rollout:** Customized virtual desktop infrastructure for a remote workforce, ensuring high availability and security.

Client Testimonials

Hear from our satisfied clients who have experienced the Corivis difference:

Azure AD Integration & Intune Setup

★★★★★ 5 July 20, 2025 - Aug 25, 2025

"Working with Aditya and his team was an excellent experience. Their expertise in Azure AD integration and Intune setup made our transition seamless and secure. Communication was clear throughout the project, and we felt confident in every step. I would highly recommend Aditya for any Azure-related projects!"

Setup Microsoft Dev Box in Azure

★★★★★ 5 Aug 20, 2025 - Aug 20, 2025

"Working with Abhishek and his team was very professional and their knowledge of Azure and Intune to get my Azure Dev Box up and running quickly was above and beyond. Furthermore, the communication with questions and updates was really nice to have. I will definitely work with Corivis again when I need to scale up or have other Azure-related needs! Really a great experience."

Optimized Azure Virtual Desktop Deployment

★★★★★ 5 Aug 21, 2025 - Aug 28, 2025

"Corivis team helped us design and deploy Azure Virtual Desktop for our remote workforce. Their knowledge of Azure scalability and security was evident, and he ensured everything was up and running quickly. The results exceeded our expectations, and we look forward to working with Corivis again for future Azure needs!"

Get in Touch

Partner with Corivis to transform your endpoint management and Azure infrastructure. Our tailored solutions drive efficiency, security, and innovation for your business. Whether you're looking to modernize, secure, or scale, we're here to guide you every step of the way. Contact us today and let's drive the vision of change together.
